3 Submitted with a draft review.

32 The following points deserve notice:—
Para 4. At the end of 1912-13 there were 10 Inspr^s and 9 clerks and proposals for strengthening the Dep^t were before Govt. The ~~2~~ number of societies was 343. This works out at 34.3 per Inspector including the societies which were not working. The Madras average in 1911-12 was 35 per ~~Inspr~~ Inspector.

Para 6. The touring of the Assistant Registrar was only 90 days and the Reg^r states that the nature of the duties assigned to his Assistant keeps him at Head Quarters almost wholly during the Reg^r's absence and partially during his stay there. In Madras the Reg^r's Assistant tours for a larger number of days. It is not clear why the Assistant Reg^r in Mysore should not tour for a larger number of days.

Para 8 & 15. The Reg^r states that 32 out of the ^{societies had} 343 ~~been~~ not started work. According to the statement this number is only 31. The number of societies for which statistics were not furnished or ~~kept against~~ against which no remarks were made is 43. It has been noticed that ^{ten} ~~some~~ societies which were shown as not having commenced work last year have not furnished statistics this year also while 17 more

Para 2 of last year's
review

3 Page 6 of Madras
Report for 1911-12

3 Page 1 of Madras Report

Serial
No.

which did ^{not} furnish statistics last year have continued to do so this year also. Some of the societies in important centres, such as the Bangalore City Building Co-operative Society, have not furnished statistics. It is well known that this society is working. Its statistics could have been easily ~~obtained~~ obtained either by reminding the society or from the monthly statements.

Paras 32 & 33. In para 9 of the last year's review it was stated that Govt. would be glad to have a detailed report about the working of the stores, weaving & lacware societies and to see an increase in both their number and business. No detailed report has yet been received. It is a question whether such a report is necessary.

Paras 150 & 21. The Registrar states that the societies have invariably been allotting to the "Reserve" more than what is prescribed by the Co-operative Regn. i.e. 25% of the net profits. The amount of net profits during the year were Rs 62,520. Applying the rule more than Rs 15,000 should have been added to the reserve. But the reserve rose from 18,833 to 30,600 i.e., by only Rs 11,767. This apparent discrepancy must have been due to the reserve ^{for the year} not having been set apart owing to annual general meetings ^{of some of the societies} not having been held.

Para 150. Disputes and litigation. - In this

Serial
No.

Para 32 of Report of

Flag 5.

connection attention is respectfully invited to para 6 of the review of the report on the working of the Co-operative Societies in the Punjab (1912-13). from which it will be seen that there was only one case in which a society was compelled to sue a debtor. If we remember that the Punjab contains the largest number of societies and yet had only one suit against a member, litigation in Mysore is rather very high. This was noticed in the last year's review (para 10).

Para 160. The Rg? states that all the societies in working order were inspected at least once during the year. It is not clear whether the societies which were not working, which contain many old societies, were inspected at all and whether any action was taken to improve their condition or to wind them up.

33- The statements attached to the Report show that the Co-operative movement is spreading rather too fast with the result that some of the societies are getting out of control. In this connection attention is respectfully invited to the Hon'ble Mr Carlyle's speech at the recent Simla Conference and the observations of the Punjab Govt. last year & this year. In Mysore more than 70 societies are either not working or are

Please see reviews
of both years Y & X

Serial
No.

H.S.

not furnishing statistics. A good many societies which failed to furnish statistics last year persist in the same attitude this year also. Last year 10 societies registered prior to 30th June 1910 were not ~~either~~ working. This year the number has increased to 17 and none of the 10 referred to in the last year's report have commenced work. No action seems to have been taken by the Rep^r in stirring these societies to action and ~~their~~ energies seem to have been concentrated in increasing the number of societies.

34. Further, the profit and loss statement and the balance sheet show that as many as 37 societies have worked at a loss and 2 of them, viz, the Koppa Agricultural Co-op^{ve} Society and the Ilthore Anyanya Sahaya Sangha, have suffered serious loss. With better guidance on the part of the Rep^r's staff these may, perhaps, be able to show a better record of work.

35. It is also respectfully submitted that information may, if found necessary, be asked to be furnished about meetings and attendance thereat to enable this office to know how the public ^{& members of societies} are impressed with the movement. Information of the kind furnished in para 36, 45 & 46 of last year's Madras Report regarding recovery of

General and Revenue
Secretariat.

loans will also be very useful.

36 In Mysore the urban societies are progressing satisfactorily and doing good business. In the Punjab and Madras it is the rural societies that are faring better. The societies are still working as independent units. The tendency in recent years, as may be seen from the Simla Conference last year and this year, is to attach them to some union or Central Bank of which they should become members. This is still in the initial stage in Mysore.

37 - As regards the forms of co-operation other than credit, the only ones in existence are (1) the manufacture of lacware, ^{purchase, sale of stores,} agriculture in the Koppa agricultural society and the weaving societies. Some of the latter such as those ^{at} Hole-Karsipur and Kommerahalli are doing good work in the way of demonstrating with improved looms & spars. There is no Co-operative dairy in Mysore as in the U.P.

Mr. S. N. 15/12/13 16/12/13 38

"Festina Lente" is a maxim which the Dept. perhaps does not much believe in. Seems the possible with more attention to consolidation than to expansion the results will be more beneficial to the Country.

13/11/14

42 One point that has been raised
is that the due date is according to
the prop 15th Dec. The report was
received some days later without the tables
which were for the instalments.
Even then the S. Co. did not read & be
understood & the Dep. had without
order of the Com. for the forms the Dep.
of that office had to be sent for to explain.
These points will be separately
taken up with the Dep.

From

M.A. Narayan Ayengar, Esq., B.A. B.L.,
Registrar of Co-operative Societies in Mysore,
Bangalore.

To

K.R. Srinivasa Iyengar, Esq., M.A.,
Secretary to the Government of His Highness
the Maharaja of Mysore, Genl. & Revenue Depts.,
Bangalore.

Sir,

I have the honor to enclose copy of my letter No. 475 CS.
dated 26th September 1913, to the Superintendent, Government
Press, requesting him to print my Annual Report on the
working of the Mysore Co-operative Societies Regulation III
of 1905 for the year 1912-13. The Report has been sent
to the Press direct in order to save the delay that is
likely to happen in ^{its} ~~the~~ transmission through you to the
Superintendent, Government Press. I request that, as
Advance copies of My Report have to be sent to the
Registrars of Co-operative Societies in British India before
the 3rd October 1913, you will kindly issue instructions to
the Government Press to treat the matter as of the utmost
importance and urgency.

only a portion
has been sent
now. The rest
will follow.

Dated Bangalore, 17th November 1913.

78

My dear Sir,

Your D.O. letter No.2117 dated 15th November
1913 to hand yesterday evening.

We received final proofs of the Imperial
Statements just now. I herewith send you a
copy.

I am sorry there has been such a long
delay in getting printed copies of the Statements.
As you know, they were sent to the Press long

ago

37

REPORT 1921-22

ago and it is only now that final proofs were received. It was therefore impossible to send them to you earlier.

I suppose the word report in your last sentence is a mistake for something else as I do not see how the Report can be considered overdue.

Yours Sincerely,

P. R. Rangarao

T. Lakshminarasimha Rao, Esq., B.A. B.L.,

Read:-

Report on the working of the Co-operative Societies in Mysore during the year 1912-13 received with letter No.69 dated 25th October 1913 from the Registrar of Co-operative Societies in Mysore.

Order thereon No.

~~Je 4547-8~~

Dated Bangalore,

~~15/4/13~~

~~February~~ 1914.

3 April

Itineration.

During the year under review the Registrar toured for 197 days, the Assistant Registrar for 90 days, and the Inspectors for 240 days on an average. All the working Societies were inspected at least once during the year. Government ^{trust} ~~hope~~ that ^{an endeavour} ~~these Societies~~ ~~will be made to have the Societies inspected~~ ~~too as well as those which have not started~~ ~~work will be inspected~~ oftener in future.

①

fix

Conferences.

2. The year under review was remarkable for the number of conferences held in the different parts of the State, some of them, viz., those at Hassan, Channagiri, Yedarur and Tumkur having been mainly organized by private agency. At each of these gatherings, large numbers of delegates were present and took a lively interest in the proceedings. The second Provincial Conference was held in Mysore in October 1912 under the auspices of His Highness Sri Kantirava Narasimharaja Wadiyar Bahadur, K.C.I.E., and was presided over by Rajamantra Pravina Mr. H.V. Nanjundayya M.A., M.L., C.I.E., First Member of Council and the report of the proceedings has already been noticed in

Government order No.2067 dated the 8th November 1913. The other interesting features of the year's work were the starting of Unions at Hassan and Tumkur and the extension of the benefits of co-operation among the members of His Highness the Maharaja's Body Guard and the employees of the Palace Stables and among the backward classes such as the Holliyars and Madigars, and the Coolies employed in the Kolar Gold Fields.

Societies, their number
and working.

3. The number of Societies rose from 208 to 343 or by 65%, the number of members from 13148 to 24,538 or by 87% and the working Capital from Rs.6,75,312 to Rs.12,89,388 or by nearly 91%. The total net profits of the year amounted to Rs.62,520 as against Rs.34,836 during the year 1911-12, and the reserve fund rose from Rs.18,833 to Rs.30,600. The total transactions of all the Societies amounted to Rs.59,52,081 against Rs.34,88,955 and representing an increase of 70.8%. The profits on the transactions yielded a return of about 1.05 on the turn over or 9.21 % on the share capital, showing an improvement over that of the previous year.

4. Out of the 343 Societies, 31 did no work during the year as most of them were started towards the end of the year, and 43 others did not furnish statistics. It is hoped that all the Societies will realise the advantage of keeping in close touch with the Department and will readily furnish information of their work and progress. It would also be useful if the Registrar bestowed special attention on the backward Societies for a time and by more frequent visits and advice stimulated them to

3.
organised
regular activity.

42

5. The City Societies ~~st~~ still continue to lead and the bulk of the entire business is done by them. The principal business of all the Societies was banking. There were, however, ten Societies for weavers and for lacware ^{lacware} manufacture. It is encouraging to note that these have done good work as they transacted

-----			business to the
1. The Diare-e-Islam Co-operative Society,			extent of more than
2. Channapatna.			
2. The Channapatna Lacware Factory.			4 lakhs. Of the Soc-
3. The Sidlaghatta Co-operative Society.			ieties in the inter-
4. The Chikballapur do-			ior, the marginally
5. The Yedarur do-			noted ones deserve
6. The Sira do-			special mention on
7. The Kunigal do-			account of the good
8. The Chiknaikanhalli do-			work done by them
9. The Turuvekere do-			and the enthusiasm

16. The Nallur Mallikarjuna do- do-			
17. The Zahir-ul-Islam Co-operative Society, Volakalmuru.			

• satisfactory to note that the Koppa Agricultural Society has made a small profit though it has not been able to recoup the heavy loss sustained in the preceding year; and it is gratifying to note that a few gentlemen are helping the Society by making advances without interest to enable the Society to maintain itself as a going concern and recoup its losses.

Loans.

6. Loans amounted to nearly 19 1/2 lakhs, ^{then for} productive purposes ^{amounting to} taking up over 54% as against 5.1 % used for non-productive purposes; loans for the payment of prior debts amounted to about 22.6%. There is every indication that the resources of the Societies are properly utilised to assist the members. Recoveries

amounted to more than 72% and may be considered to be satisfactory. .

Resources.

7. It is an encouraging sign that so far the Societies are, to a great extent, working with their own share capital and deposits and loans from the Central Bank, and Government ^{aid} is required only in very few cases.

Litigation.

8. The number of suits filed by the Societies before the Registrar was 70 against 82 in the previous year. Including the suits pending at the beginning of the year the total number was 107. Of these 64 were withdrawn and decrees were passed in 28 cases and 15 were pending disposal. In this connection the attention of the Registrar is ~~drawn~~ invited to section 27(0) of the Mysore Co-operative Societies' Regulation and the rules thereunder which provide for compulsory arbitration in the case of disputes with members. It will be interesting to know if this provision has been made use of and to what extent.

Audit and inspection.

9. The number of Societies audited and test audited was 225 or nearly 66%. It is however observed that a thorough and effective audit of every society is a matter requiring special attention and such an audit is a duty devolving on the Registrar under Section 21 of the Co-operative Societies Regulation. ~~The Registrar is requested to make adequate arrangements for the efficient performance of this duty.~~ The step taken by the newly formed Hassan Union for inspecting and supervising some of its constituent societies makes a promising beginning. Government

hope that with the formation of more Unions the inspection of a large number of societies will be taken up by them giving the Registrar and his staff opportunities to bestow greater attention on the inactive and backward societies.

Concluding remarks.

10. In all directions the progress of the co-operative movement during the year 1912-13 has been extremely satisfactory. There has been a marked rise in the number of societies in the Maidan Districts of the State and Government are glad to note that the Registrar freely received help both from officials and from non-officials in various directions connected with the movement. Government commend to the attention of the Registrar the desirability of bringing the co-operative movement into close touch with the Agricultural and the Veterinary Departments.

It is noticed that many of the Registered Societies have assumed names of inconvenient length. The Registrar should be good enough to use his influence to encourage the adoption of shorter names in future.

acknowledgments
The ~~thanks~~ of Government are due to Mr. Narayana Aiyengar and his staff for the steady and rapid advance made during the year in the spread of co-operation in the State.

No. 523--C. S.

OFFICE OF THE REGISTRAR OF CO-OPERATIVE
SOCIETIES IN MYSORE.

Dated Bangalore, 25th September 1913.

FROM

M. A. NARAYANA IYENGAR, Esq., B.A., B.L.,
Registrar of Co-operative Societies in Mysore, Bangalore.

TO

K. R. SRINIVASA IYENGAR, Esq., M.A.,
*Secretary to the Government of His Highness the Maharaja
of Mysore, General and Revenue Departments, Bangalore.*

SIR,

I have the honor to submit the Eighth Annual Report on the Administration of the Mysore Co-operative Societies Regulation, III of 1905, for the year ending with the 30th June 1913.

I. ADMINISTRATION AND TOURS.

2. *Administration.*—I continued to be in charge of the Office of Registrar during the year and Mr. R. Ranga Rao continued to be my Assistant.

3. The Office of the Registrar was made permanent and the appointment was included in the *cadre* of Deputy Commissioners.

4. In view of the rapid development of the co-operative movement and the heavy work that devolves on the office in consequence, the Government were pleased to strengthen the inspecting and clerical staff of this Department. They sanctioned in Government Order No. Fl. 2738-9—B. 5-12-2, dated Bangalore, 6th November 1912, two Inspectors and two clerks, and gave me powers to appoint a new Inspector for every 40 additional Societies and a clerk for every 60 additional Societies. At the end of the year there were 10 Inspectors and 9 clerks. Proposals for strengthening the Department still further are under the consideration of Government.

5. In pursuance of the objects of the Mysore Economic Conference the Agricultural Committee appointed a Lecturer on Co-operation and placed him under my orders. He began his duties towards the end of May 1913, and was learning work partly in the office and partly in touring in the company of some of the Inspectors.

6. *Tours.*—I was on tour for 197 days. In October 1912, I attended the Conference at Simla of the Registrars of Co-operative Societies. The nature of the duties assigned to my Assistant Mr. R. Ranga Rao keeps him at headquarters almost wholly during my absence and partially during my stay there. Notwithstanding this difficulty I am glad to report that he toured for 90 days. The Inspectors toured on an average 20 days a month.

II. SUMMARY OF GENERAL PROGRESS.

7. The year's work has been characterized by the following features:—

- (a) A rapid increase in the number and variety of Societies.
- (b) An all-round improvement in the working of Societies.
- (c) A desire for increased knowledge through Conferences and Co-operative publications.
- (d) A more intimate relation of Societies than that of the past year.
- (e) A greater degree of public confidence in the usefulness and stability of the Co-operative movement.

I do not propose to say anything more about these points here as they are referred to in detail in different parts of this report.

8. *Registration.* -There were 208 Societies at the beginning of the year, 136 were newly registered and the registration of one Society was cancelled. There were thus 343 Societies at the end of the year, of which 32 Societies registered about the latter part of the year had yet to start working. Eight applications for registration of Societies were pending disposal.

9. The one Society that was dissolved during the year was a Panchama Society at Attni-Hebbale in the Arkalgud Taluk. It was found that no material for working the Society existed. The members were therefore included in the Hebbale Society and the Attni-Hebbale Society was dissolved.

10. This large increase in the number of Societies was purely voluntary and was the direct result of increased knowledge and increased appreciation on the part of the public of the benefits of co-operation. The good work done by each Society in its area of operations, the publicity given at the various Conferences to the principles, methods and objects of co-operation, the sympathy and interest of the leaders of the people in the movement, and the active propoganda carried on by the Department—these were the causes of this increased knowledge and appreciation, and they brought about a rapid spread of the movement among various classes of people to whom co-operation had been of little or no interest as an economic force. To mention a few instances, the year has seen the establishment of Co-operative Societies among the coolies employed on the Kolar Gold Fields, the members of the Body Guard of His Highness the Maharaja and of the employees of the Palace Stables at Mysore. More especially has there been an awakening on the part of the depressed classes the Madigas and the Holeyas to their condition and of what co-operation can do to improve them socially, morally and economically.

11. The following table shows the Societies in the State classified according to their objects:—

District	I. Credit	II. Purchase and sale	III. Production	IV. Production and sale	V. Insurance	VI. Miscellaneous	Total
Bangalore	56	8	...	1	...	...	60
Kolar	35	...	...	...	...	...	35
Tumkur	63	1	...	...	...	...	64
Mysore	50	9	...	1	...	1	61
Hassan	72	1	...	...	...	...	73
Shimoga	24	1	...	...	...	1	26
Kadur	14	...	...	...	...	1	15
Chitaldrug	7	1	...	...	...	1	9
Total	321	16	...	2	...	4	343

This classification is based on scientific principles, and has been adopted by the Government of India and the International Institute of Agriculture in Rome for the compilation of the Statistics of Co-operative Societies.

12. The following table classifies the Societies into Central, Agricultural, Non-Agricultural, Limited and Unlimited:—

District	Central	Agricultural, Limited	Agricultural, Unlimited	Non-Agricultural, Limited	Non-Agricultural, Unlimited	Total
Bangalore	1	6	34	18	1	60
Kolar	...	5	11	19	...	35
Tumkur	1	6	46	10	1	64
Mysore	1	8	28	16	8	61
Hassan	1	...	60	5	7	73
Shimoga	...	1	20	3	2	26
Kadur	...	1	7	4	3	15
Chitaldrug	...	2	3	1	3	9
Total	4	29	209	76	25	343

13. The general progress of the movement from its inception in 1905 is summarised below :—

District	Number of Co-operative Societies							
	1905-06	1906-07	1907-08	1908-09	1909-10	1910-11	1911-12	1912-13
Bangalore ...	2	4	4	5	11	19	37	60
Kolar ...	...	...	1	2	3	4	19	35
Tumkur ...	...	4	4	9	20	27	43	64
Mysore ...	1	5	12	16	20	36	44	61
Hassan ...	1	1	1	2	3	10	47	73
Shimoga ...	...	...	1	2	2	5	7	26
Kadur ...	1	1	2	3	5	5	6	15
Chitaldrug ...	...	...	2	6	6	5	5	9
Total ...	5	15	27	45	70	111	208	343

14. The following statement shows the progress of work done from year to year :—

Year	Number of Societies	Number of members	Working capital	Total transactions	Total net profits	Total reserve fund
			Rs.	Rs.	Rs.	Rs.
1905-06 ...	5	862	14,243	48,556	...	132
1906-07 ...	15	1,191	28,085	1,60,124	...	160
1907-08 ...	27	2,521	64,126	4,77,067	5,295	924
1908-09 ...	45	4,551	1,35,499	9,79,650	6,449	2,340
1909-10 ...	70	6,301	2,16,261	13,77,278	10,471	5,831
1910-11 ...	111	9,043	3,71,194	20,72,413	19,324	9,549
1911-12 ...	208	13,148	6,75,312	34,33,955	34,836	18,833
1912-13 ...	343	24,538	12,89,338	59,52,081	62,520	30,600

NOTE.—Fractions of a rupee omitted.

15. *Number of Societies.*—The number of Societies rose from 208 to 343 the increase being a percentage of about 65. The rise was general in all the Districts, showing an all-round demand for Societies. The Co-operative movement however has spread most widely, as in the previous year, in the Hassan, Tumkur, Mysore and Bangalore Districts with over 60 Societies in each of these Districts.

16. *Membership.*—The total number of members at the end of the year 1911-1912 was 13,148. At the end of 1912-13, it was 24,538, the figures having nearly doubled and proving a phenomenally rapid advance in the popularity of the co-operative movement. It may perhaps be mentioned that while the increase in the number of Societies has been about 65 per cent, the increase in membership is about 87 per cent. This is due to the fact that side by side with the establishment of fresh Societies, the older Societies are getting strengthened by an influx of fresh members who had kept aloof from joining the movement earlier. The average membership per Society has increased from 64 to 72. As during the last year, the Tumkur District furnishes the largest number of members, viz., 5,462. Next in order are Bangalore with 4,910, Mysore with 4,474, Hassan with 3,055, Kolar with 3,322, Shimoga with 1,500, Kadur with 922 and Chitaldrug with 893.

17. *Working capital.*—The total working capital was Rs. 12,89,338 against Rs. 6,75,312 of the year previous, being an increase of nearly 99 per cent. Here again, it should be pointed out that the working capital has risen more rapidly than the number of Societies. This growth of capital is entirely due to the private resources of the Societies with no Government assistance whatsoever and proves the immense confidence in the success of the Co-operative Credit movement as much in the wily and unscrupulous money-lender as in the ignorant and suspicious

raiyat from both of whom the capital has been drawn. The average working capital available per head of membership is Rs. 52 or nearly the same as last year. The Bangalore District contributes the largest amount of working capital, viz., Rs. 5,28,954, next comes Mysore with Rs. 2,70,060 and Tumkur with Rs. 2,29,144, Hassan contributes Rs. 98,806, Kolar contributes nearly Rs. 1,00,000 and the other Districts contribute about Rs. 63,261 among them.

18. *Receipts and expenditure.*—The total receipts of all the Societies amounted to Rs. 30,50,147 as against Rs. 17,90,148 of last year, or an increase of 70·3 per cent. The total expenditure amounted to Rs. 29,01,934 against Rs. 16,93,807 of last year, or an increase of 71·3 per cent. The total volume of business was thus Rs. 59,52,081 against Rs. 34,83,955, or an increase of 70·8 per cent.

19. *Deposits.*—Deposits formed a substantial part of the working capital of the Societies. The total amount of deposits received during the year was Rs. 6,28,850 as against Rs. 3,95,214 of last year, the increase being about 59 per cent. The bulk of the deposits was attracted by the Societies in the Bangalore City. This amount was Rs. 4,66,000. The Bangalore City Co-operative Society attracted deposits to the extent of Rs. 2,89,373. The Bangalore Central Co-operative Bank received deposits to the extent of nearly Rs. 1,00,000 and the City Co-operative Bank Rs. 70,500. The Tumkur District contributed Rs. 56,679 against Rs. 22,694 last year. The Tumkur and Sira Societies received Rs. 20,235 and Rs. 6,909 respectively, the rest of the amount being contributed by the other Societies. Next in order was the Mysore District with Rs. 35,872 of which the Mysore Co-operative Bank accounted for Rs. 10,810 and the Mysore District Central Co-operative Bank for Rs. 7,127. There has been a substantial improvement in this respect in the Mysore District, the corresponding figure for last year being Rs. 7,122. The Kolar District had deposits to the extent of Rs. 23,330. The deposits in the other Districts were trifling in amount.

20. It will be noticed that there has been a steady progress in respect of deposits which is one of the principal tests of the success of the movement. The following statement shows the extent of this progress during the past three years for the three Districts which have developed most in respect of deposits:—

				1910-11	1911-12	1912-13
				Rs.	Rs.	Rs.
Bangalore District	...	...	...	1,73,033	3,52,721	4,72,384
Tumkur do	...	...	...	12,009	22,694	56,679
Mysore do	...	...	...	13,032	7,122	35,872

In this as in other matters relating to co-operation the older Districts are making the greatest advance.

21. *Profits and Reserve Fund.*—The total profits made during the year were Rs. 1,29,981 of which the amount of total net profits was Rs. 62,520 against Rs. 73,995 and Rs. 34,836 respectively. The Reserve Fund amounted to Rs. 30,600 against Rs. 18,833. Here again the older Districts are the most satisfactory. The Bangalore District has a Reserve Fund of Rs. 12,022, the Mysore District of Rs. 7,505, and the Tumkur District of Rs. 7,274. The remaining Districts contribute the balance.

22. It may be incidentally mentioned that no Society is allowed to utilise its Reserve Fund as part of its working capital, the amount being deposited in the Government or Postal Savings Bank or in one of the Central Banks.

23. *Amount of loans.*—The total number of loans issued was 41,957 of the value of Rs. 19,49,289-3-11. The corresponding figures for last year were 23,214 and Rs. 10,16,997. The recoveries amounted to Rs. 14,09,754 against Rs. 7,96,504, last year.

24. *Kinds of securities on which loans were granted.*—The greater part of the loans was given on the security of the good character of the borrower. The amount

under this head was Rs. 11,32,732 in 33,020 cases. The amount of loans granted on pledge of property, movable or immovable, was Rs. 4,16,613. The amount given on the joint and several liability of the borrower and one or more sureties was Rs. 3,98,953 in 5,076 cases. The percentage of loans granted on security of property, movable and immovable, to the total amount of loans is 21 as against 19, last year. As stated in my previous report, efforts are being made to discourage the grant of loans on security of property and to encourage reliance on the honesty, good character, thrift and business habits of the borrower. The small increase of 2 per cent during the current year is due to the fact that a large amount has been advanced for the payment of prior debts and for comparatively long periods and it has been therefore found necessary to secure the debts in some tangible manner.

25. *Loans for productive purposes.*—The amount of loans granted for what are strictly productive purposes was Rs. 10,51,179, or a little over 54 per cent of the total amount. Of this amount, Rs. 52,762 was given for permanent improvement of land, Rs. 71,460 for cultivation expenses, Rs. 51,647 for purchase of cattle, Rs. 75,440 for purchase of raw materials of industry, Rs. 3,58,375 for purposes of trade, Rs. 61,013 for building, buying or repairing houses, and Rs. 29,587 for purchase of land.

26. *Loans for necessary purposes.*—An amount of Rs. 44,850 was advanced for payment of land revenue due to Government and Rs. 3,06,589 for purchase of food and other necessities of life. A sum of no less than Rs. 4,40,445 was given for payment of prior debts as against Rs. 4,52,808, last year. This is in accordance with the policy pursued last year of finding funds to release the members of Co-operative Societies from their indebtedness to the private money-lenders. Such a step is indeed essential as it is impossible for the ryots to be members of Co-operative Societies and derive the benefits of such membership while their indebtedness to the village sowcar still continues. The ryot has got to choose between the sowcar and the Society, and his choice can be but one-sided unless he is furnished with the means of freeing himself from his bondage to the sowcar.

27. *Loans for non-productive purposes.*—The total amount lent for purposes which may be classed as non-productive was about Rs. 1,00,000 as against Rs. 65,685. It will be noticed that while the proportion of these loans to the total loans was 6·4 last year, it was 5·1 during the year under report. The slight fall is satisfactory so far as it goes, and one can but hope that it is significant of what will happen during the coming years when, with the growth of the Co-operative movement, the principles of Co-operation are more thoroughly understood, and their methods more vigorously pursued. To give the figures for the amounts advanced under the various headings classed as unproductive, a sum of Rs. 50,445 was advanced for marriage expenses, Rs. 12,882 for other ceremonies, and Rs. 2,696 for litigation.

28. It was pointed out last year in paragraph 12 of my report that apart from the moral and social benefits of co-operation, the ryots had saved in interest alone a sum of Rs. 45,000. Adopting a similar basis of calculation, the amount saved on this item will come to about Rs. 95,000, during the year under report.

29. As stated in paragraph 18 above, the total transactions of the Societies in the State amounted to Rs. 59,52,081. The gross profits realised were Rs. 1,29,981, of which a sum of Rs. 67,461, represented the working charges. This works out at 1·13 as against 1·12 last year. The cost to Government for working the Co-operative Department during the year was Rs. 26,551-12-6 or 0·46 per cent against 0·55 last year.

30. The principal features characterizing the movement during the year are mentioned in paragraph 7 above. As stated there, the year under report has witnessed the introduction of co-operation into communities which were sorely in need of its help. Agriculturists and people with small fixed incomes formed till now the bulk of the people among whom co-operation had spread. But other communities are now realising its possibilities and are actively set upon improving their condition by adopting Co-operative methods. Thus the coolies employed on the Kolar Gold Fields have started a number of Co-operative Societies under the instructions and guidance of Messrs. Richards, Bullen and other leading gentlemen of the Mining Board. The members of the Body Guard of His Highness the Maharaja and the employees of the Mysore Palace Stables have voluntarily sought the benefits of

co-operation. The weavers in different parts of the State are anxious to start Co-operative Societies specially suited to their conditions and needs. The Panchamas have, under the beneficent effects of education, realised the necessity of improvement, and turned to co-operation as the chief means of such improvement.

(1) 31. A necessary consequence of this spread of co-operation among different communities with different needs and different objects has been a certain amount of variety in the kinds of Societies. As during last year, Credit Societies for the promotion of thrift, self-help and the provision of cheap money for borrowing still form the principal form of co-operation. There are 321 such Societies in the State with a membership of about 23,000 and working capital of about Rs. 12,00,000. They include about 2,500 villages in the area of their operations.

32. Stores form our next important branch of co-operation. There are 20 of them with a membership of about 1,500 and a working capital of about Rs. 60,000. Their transactions amount to about Rs. 4,07,700. They have not as yet gone much beyond the stage of supplying the most ordinary household requirements of their members. As, however, their membership increases, and greater knowledge of their objects and methods of management is obtained, they may be expected to grow in numbers and in importance.

33. Productive Societies have increased from 8 to 11. Ten of these are Weaver Societies and one is a Lacware Society. They have a membership of about 450 and a working capital of about Rs. 20,000 and have transacted business to the extent of Rs. 4,07,970-13-9. Apart from providing the funds required by the artisans who form the bulk of the membership, these societies are doing valuable work in popularising improved methods of carrying on work. Thus the Lacware Society at Channapatna is popularising the use of improved lathes worked by machinery. The Society is indebted to the courtesy and sympathy of Mr. A. Chatterton, C. I. E., Director of Industries and Commerce in Mysore, for the facilities which he has given to it to make use of the machinery installed in the Channapatna Industrial School. So, also, the Weavers' Societies in different parts of the State are using and demonstrating the advantage of fly-shuttle looms and improved slays over those ordinarily used. The practical and successful results achieved by these Societies, combined with the assistance, financial and technical, which the Mysore Economic Conference and the Director of Industries and Commerce are ready to render, are likely to develop this branch of co-operation. I have used the term production in this para in a much wider sense than in para 11 as many Weaver Societies virtually promote production while in practice they but purchase yarn and sell it to members.

34. There is nothing of special interest with respect to Grain Banks, Building Societies and Agricultural Associations.

35. A third important feature of this year's work was a decided tendency in favour of a closer association of Societies with each other. This was exemplified in the series of Conferences which were held during the year and in the formation of Co-operative Unions. Paragraphs 164-169 deal with Conferences and I will close this portion of my report with a brief mention of Unions.

36. There have long been two Central Societies in the State, one at Bangalore with its operations extending over the whole State and the other at Mysore with its operations extending over the Mysore District. Both these Societies were started as any ordinary Co-operative Society but their chief function was the financing of other Co-operative Societies. When a Society is in need of funds, it makes an application to the Registrar, who, after a thorough investigation, forwards the application to the Central Bank concerned with his recommendation and the Central Bank acts on such recommendation. Though, as a rule, every Society to which a loan is sanctioned by the Central Bank is required to become a member of the latter, the connection between the Central Bank and the individual Society begins with the grant of the loan and ends with its repayment. And even during the continuance of this connection, the Central Bank has no means of knowing the details of the working of the individual society and the latter has no special interest in the working of the Central Bank. The Central Bank has generally no knowledge whatever how the funds made available by it were used and how, generally, the societies borrowing from it carry on their work. It would be different if the Central Bank exercised powers of inspection, supervision and audit. But for various reasons this

51

is not being done. To remedy this, therefore, it was decided to bring into existence an institution which would serve as a permanent link between the individual Societies on the one hand and the Central Banks on the other. This institution is the Union.

37. A Union is a Society consisting of other Societies as members. It is, in fact, a logical extension of the idea of co-operation. Just as a Co-operative Society is due to the co-operation of several individuals, so is a Union due to the co-operation of several Societies. Owing, however, to the present conditions in Mysore, a Union, pure and simple, is somewhat impracticable. A Union consisting entirely of Societies as members would have to be managed by representatives of these Societies. But owing to want of good means of communication and the comparative ignorance of the villager as compared with the resident of the city, it is undesirable and impossible to leave the management to the representatives of the member Societies. For this reason it has been found necessary to admit individuals as members and to entrust to them the working and management of the affairs of the Union.

cf. 30-10-12

38. The Union is entrusted with both financial and supervisory powers over the affiliated societies. When a society is in need of funds, it applies to the Union of which it is a member, which in its turn, investigates the application and sanctions it or rejects it as the case may be. In case it has not got funds of its own, it borrows the required amount from the Central Bank. In view of the fact that, in this process of borrowing, the Union lends the strength of its guarantee to the borrowing society and also undertakes the task of inspecting and supervising it, the Central Bank can afford to lend to the Union at slightly lower rates of interest than to the borrowing society direct. This difference forms the profits of the Union, the borrowing society has to pay no more than if it had borrowed direct, and the Central Bank is sure of its interests being duly safeguarded by the Union.

39. These are, in brief, the objects and methods of Unions. There are various provisions and safeguards to go into which is not necessary. Two such Unions have been started, one at Hassan with its area of operations over the societies in the Hassan District and the other at Tumkur with its area of operations extending over the societies in the taluks of Tumkur, Gubbi, Tiptur, Chiknayakanhalli, Kunigal and the Turuvekere Sub-Taluk. These Unions were started during the latter part of the year and beyond inspecting some of the affiliated societies, they did no other work.

III. WORKING OF SOCIETIES.

BANGALORE DISTRICT.

40. During the year under report, there has been a rapid rise in the number of societies, a satisfactory development of old ones and a decided increase in the volume of transactions in the Bangalore District.

41. The number of societies has increased from 37 at the beginning of the year to 60 at the end, of which one is a Central Bank, 40 agricultural societies and 19 non-agricultural societies. Of the total number five are stores societies also doing banking transactions, one is a productive society and the remaining 54 are purely credit societies. The society at Hoskote has just begun a Stores Department.

42. *Membership.*—The membership has risen from 2,600 to 4,910 and the share capital collected from Rs. 1,36,406-8-0 to Rs. 2,04,335-10-8.

43. *Volume of business.*—There has been a decided progress in the volume of business done. The total receipts during the year amounted to Rs. 14,07,692-13-5 as against Rs. 9,57,950-6-11 during 1911-12 and the total disbursements to Rs. 13,26,382-11-0 against Rs. 8,97,689.

44. *Working capital and loans.*—The working capital was Rs. 3,30,433-4-9 at the beginning of the year which increased to Rs. 5,28,954-3-10 during the year. This was utilized in issuing 13,869 loans amounting to Rs. 8,01,970-8-0, as against 10,355 loans amounting to Rs. 5,16,770-0-2 last year. Of the total amounts of loans issued Rs. 1,88,252-14-0 were given on the credit of the borrower. Except a small portion, the total amount of loans issued was used for the improvement of land, for purposes of trade and for clearing old debts.

45. *Co-operative Stores.*—The number of Stores Societies increased from 5 to 6 during the year. The one newly registered was the Udyoga and Vyaparottejaka Sangha, Ltd., in the Bangalore City. All these six societies sold to their members and others food-stuffs and other necessities of life worth about Rs. 85,032-2-6. With all the difficulties connected with the management of Stores Societies, they have made a steady progress during the year.

46. *The Bangalore Central Co-operative Bank, Ltd.* - This institution continues to maintain its popularity, usefulness and soundness of management. Its membership increased from 86 at the beginning of the year to 133 at the close, of which 35 were societies and 98 individual members. The working capital of the Bank has almost doubled itself having risen from Rs. 92,945 to Rs. 1,75,394-3-9. It has issued 53 loans amounting to Rs. 1,18,580 of which 38 loans amounting to Rs. 99,225, for periods varying from two to five years, were issued to 35 rural co-operative societies and the rest, viz., Rs. 19,355 to individual members. The reserve funds of most co-operative societies are deposited in this Bank. Owing to the increased confidence in the Bank and the handsome rate of 5 to 6 per cent of interest on fixed deposits, the Bank attracted deposits to the extent of Rs. 97,776-13-10 during the year and had deposits amounting to Rs. 1,39,219-3-9 on 30th June 1913. As it was able to meet all demands out of its own funds, the cash credit of Rs. 35,000 sanctioned to it by the Government has not been touched upon. The Bank made a net profit of Rs. 4,313-3-11 for the year 1912-13. All the shares have been fully subscribed for. People are eager to buy the shares even at a premium. The institution has been very useful in readily financing rural co-operative societies.

47. *The Bangalore City Building Co-operative Society.*—This society depends for its working capital upon the Bangalore Central Co-operative Bank which has given it a cash credit of Rs. 25,000. It issued loans to the extent of Rs. 20,594 during the year for house-building in the city.

48. *The Bangalore City Co-operative Bank, Ltd.*—The membership of the Bank increased from 670 to 714 during the year. Its working capital amounts to Rs. 98,088-11-11 as against Rs. 67,695-13-3 of the previous year. The society has attracted in the way of deposits twice as much as it did last year, viz., Rs. 43,870-14-5 against Rs. 21,257-7-9.

49. *The Bangalore City Co-operative Society, Ltd.*—Its membership increased from 527 to 538 and working capital from Rs. 1,26,494-2-3 to Rs. 1,41,529-10-6. The society attracted deposits to the extent of Rs. 2,89,373-2-10 during the year. The Provident Fund branch of the society is much appreciated by the members. One thousand six hundred and seventy-eight provident fund bonds have been taken up by 373 members and the society collects Rs. 1,244 on an average every month under this head. This and the previous institution continue to be the premier societies in the State.

50. *The Basavangudi and Malleswaram Co-operative Societies* located at the two different extensions of the city of Bangalore are chiefly Stores Societies and have done very good business during the year. They have a membership of 175 and 205 respectively. The Basavangudi Society sold household provisions worth Rs. 21,026-6-7 and issued loans to Rs. 11,036-8-0. The Malleswaram Co-operative Society sold goods to the extent of Rs. 31,761-13-7 and issued loans to the extent of Rs. 5,908. This latter Society ranks first among the Stores Societies in the State.

51. *The Udyoga and Vyaparottejaka Annyonya Sahaya Sangha, Ltd., Bangalore.*—This is a new banking and stores society at Siddicutta in the Bangalore City registered this year. It sold clothes worth Rs. 5,196-10-4 and issued loans to the extent of Rs. 7,908 during the year.

52. *The City Javali Kasabinavara Paraspara Sahaya Sangha, Ltd.*—This Society was started late in the year to help poor weavers with capital to purchase yarn and raw materials wholesale and sell the articles produced by the members. It has collected capital to the extent of Rs. 781 and has issued loans to the extent of Rs. 686-14-0.

53. There are four Co-operative Societies at Channapatna of which the Daire-e-Islam Co-operative Society does the largest volume of business. It issued during the year 298 loans amounting to Rs. 83,175, all for the purpose of trade, the mem-

bers of the society being solely traders. It has a capital of Rs. 18,908-11-8 and a membership of 100 persons.

② 54. The Channapatna Lacware Factory sold toys worth Rs. 1,893-4-2 during the year which were manufactured by the members. With the improved lathes at the Industrial School at which it is now allowed to work the Society hopes to manufacture toys more rapidly and do greater business.

55. *The membership of the Channapatna Co-operative Society*, which is now purely a credit institution has doubled itself during the year having risen from 72 to 144. It has collected share capital to the extent of Rs. 7,346.

56. *The Channapatna Co-operative Silk Association* was started this year with the idea of helping persons engaged in the silk industry. This Society has collected a share capital of about Rs. 1,000.

57. *The Doddballapur Co-operative Society, Ltd.*, was started about six months ago with an authorised share capital of Rs. 20,000 made up of 1,000 shares of Rs. 20 each. All the shares are taken up. The Society has collected a share capital of Rs. 2,646-12-0. Every month it is adding to its share capital about Rs. 500 as each share is payable in monthly instalments of eight annas.

58. *The Huskur Sri Myscramba Paraspara Sahaya Sangha, Unltd.*—This Society was started to give relief to the poor Holeyars of the village who were all indebted to three Labbe Sowcars. The Labbes were exacting usurious rates of interest at one pie per rupee per day from the Holeyars. The shares of the Society are of the value of Rs. 5 each and the members are required to pay it in instalments of annas four per week out of their daily earnings. The Society had 77 members at the close of the year and had collected a share capital of Rs. 144-8-0 from its members. To supplement the capital of the society I deposited a sum of Rs. 150 from His Highness the Maharaja's Fund at five per cent interest. This enabled the Holeyar members to discharge all their old debts and the Labbes had to quit the village finding that there was no room for their exploitation. The Society owes its success to its President Mr. Settappa.

59. The societies at Kankanhalli and Closepet continued to do good work during the year.

60. The principal societies in the District which have borrowed from the Central Bank are those at Huskur, Kachanaikanahalli, Billankote, Jakkanahalli and Bevur.

KOLAR DISTRICT.

61. The work of organization in the Kolar District progressed rapidly during the year, and as a result, the number of societies increased from 19 to 35. The membership rose from 977 at the commencement to 3,322 at the close of the year. The working capital more than trebled itself during the year, having risen from Rs. 27,869 to Rs. 99,139. The receipts on account of share capital rose from Rs. 16,202 to Rs. 56,698 while the deposits attracted amounted to Rs. 23,330 as against Rs. 8,719 in the previous year. Seven thousand five hundred and four loans of the value of Rs. 1,94,876 were issued, of which a sum of Rs. 1,34,348 was received back in repayment. The total profit earned was Rs. 8,451 of which Rs. 5,567 was the amount of net profits.

62. Among the principal limited societies in the District, the one at Kolar is progressing steadily. The number of members increased from 149 to 159 and the share capital from Rs. 8,869 to Rs. 10,030 during the year. It granted loans to the extent of Rs. 14,687 and sold goods to the extent of Rs. 7,568-13-8. It continues to be very useful to the official class of members. This Society has set a very good example by offering a prize of Rs. 10 to the best Co-operator in the Society. It has built up a Reserve Fund of Rs. 820 the largest in the District.

63. The progress of the Sidlaghatta Co-operative Society, Ltd., during the year is very remarkable. Its committee of management is made up of young enthusiasts who have developed the true co-operative spirit to a considerable extent. They deserve no small credit for the success the Society has achieved, especially at a place where eight Joint Stock Banks were working, and where much opposition was shown by interested money-lenders. With 366 members and a working

③

capital of Rs. 18,012, it has developed far beyond the Societies registered earlier. The good work of the Society has to some extent reduced the rate of interest charged by the local money-lenders.

64. The Society at *Chikballapur* is following close in the wake of the *Sidlaghatta* Society, and has been equally successful. Its membership increased from 195 to 295 and its working capital from Rs. 6,114 to Rs. 14,874. During the year it granted loans to the extent of Rs. 23,561.

65. *The Chintamani Co-operative Society, Limited*, has been of great use to the local traders. Its membership rose from 210 to 260 and its working capital from Rs. 3,248 to Rs. 7,297. The Societies at *Bowringpet*, *Budikote*, *Malur*, *Goribidnur* and *Hudugur* which were recently started show signs of progress.

66. Among the Agricultural (Unlimited) Societies in the District, special mention may be made of the Society at *Yedarur* in the *Srinivasapur* Taluk. In less than a year it collected a working capital of Rs. 2,253, which was supplemented by a loan of Rs. 4,000 from the *Bangalore Central Co-operative Bank*. Its membership stood at 111 at the close of the year. This small village Society very successfully organized and conducted a Conference of all the co-operators in the *Kolar District* to which reference is made in para 167 below.

67. The Society at *Yeludur* in the same taluk, progressed very much during the year. Its membership increased from 47 to 80 and its working capital from Rs. 610 to Rs. 1,912.

68. The good work of these two institutions led to the starting of three more Societies in the same taluk and three in the neighbouring taluks.

69. The Society at *Kudiyanur* in the *Malur* Taluk borrowed a sum of Rs. 3,500 from the *Bangalore Central Co-operative Bank*. It issued 277 loans of the value of Rs. 6,900 and earned a net profit of Rs. 323-2-2.

70. The Societies at *Holur* and *Haralukunte* in the *Kolar* Taluk, *Dimbala*, *Gounpalli* and *Yerukalve* in the *Srinivasapur* Taluk; *Gangur* in the *Chintamani* Taluk and *Nandi* in the *Chikballapur* Taluk were all started late in the year and show signs of quick development.

71. Among the non-agricultural Societies, those started on the Gold Fields for the heterogeneous floating population deserve special mention. These Societies have increased from 9 to 11, and have rescued their members from the exorbitant usury prevailing in the locality, the ordinary rate of interest outside the Societies being two annas a rupee *per month*.

72. Five of these Societies promote co-operation and thrift among different classes of coolies on the *Nundydroog Mine* who earn from 6 to 12 annas a day. They have a membership of 882 persons and a working capital of Rs. 6,467-13-3.

73. *The Ooregaum Mine Co-operative Society* draws its members from the officials and contractors of the mine. It has a membership of 131 persons and a working capital of Rs. 11,399. The success and rapid development of the Society is chiefly due to the exertions of its enthusiastic Secretary Mr. Dennis Patton, under the guidance of Mr. R. H. P. Bullen, the Superintendent of the Mine.

74. *The Nundydroog Mine A. Co-operative Society* is another similar institution for the benefit of the clerical staff and contractors on the mine. It has a membership of 45 persons and a working capital of Rs. 3,542.

75. *The Nundydroog Mine E. and F. Co-operative Societies* enlist their members from amongst the skilled workmen on the mine. They have together 104 members and Rs. 1,646-14-6 as working capital to their credit.

76. All these Societies on the mines are fostered by the Superintendents Messrs. C. H. Richards and R. H. P. Bullen. Mr. G. E. Payne of the *Nundydroog Mine* has been devoting a lot of his time and energy in developing the many Societies in his charge. But for the continued interest and facilities afforded by these and other authorities on the mines, the Societies could not have achieved their present success.

TUMKUR DISTRICT.

77. The number of Societies in the District increased from 43 to 64 and the membership from 3,657 to 5,462. The working capital doubled itself during the

year the increase being from Rs. 1,14,150 to Rs. 2,29,144. To this increase of capital, deposits and loans contributed to the extent of Rs. 60,000 and 30,000, respectively, the addition under shares being Rs. 54,000. The total share capital of all the Societies in the District amounted to Rs. 1,21,552 at the end of the year as against Rs. 75,954 of the year previous, whilst the total transactions increased from Rs. 5,06,231 to Rs. 9,89,620. These transactions resulted in a net profit of Rs. 12,965 to all the Societies, the sum created to the Reserve Fund reaching Rs. 7,275.

78. In this general progress the help rendered by the Central Co-operative Bank at Bangalore was not inconsiderable. Fresh loans to the extent of Rs. 30,100 were lent to 10 Societies during the year, the total outstanding at the end against 15 of them being Rs. 42,200 as against Rs. 14,500 of the previous year. A great step forward was taken by the formation at the end of the year of a Federal Banking Union at Tumkur with its operation extending over the taluks of Tumkur, Tiptur, Gubbi, Chiknayakanhalli, Kunigal and the Turuvekere Sub-Taluk and it is expected that the Union, when it gets into working order, will undertake the financing and supervision of societies affiliated to it.

79. *The Tumkur Co-operative Society* continued to lead the District during the year as in the past. Its share capital increased from Rs. 19,421 to Rs. 26,914 and its membership rose from 549 to 575. The deposits attracted were also large, the amount at the close of the year being Rs. 10,393. The Society has had a working capital of Rs. 53,404 at its disposal; and its reserve fund amounts to a little over Rs. 2,630. Mr. C. Seshadri Iyengar and Mr. C. D. Ramaswamiah, Retired Superintendents of Police, continued to guide the Society as its President and Secretary, respectively.

80. *The Society at Sira* with its annexer of stores takes a good second place with a share capital of Rs. 20,000 and a membership of 396. The volume of business was considerable, though the working capital available was about half that of the Tumkur Society and the result was a net profit of Rs. 2,863 nearly double that earned by the purely credit society of Tumkur. The society had accumulated a sum of Rs. 1,688 as Reserve Fund. It has been a model to several of the rural societies that have recently sprung up in the neighbourhood. The managing members of the society who bore the brunt of the work till now without remuneration have begun to feel the necessity for a paid establishment in order to be able to cope with the increase of work. (5)

81. It is gratifying to note that the *Maddagiri Co-operative Society* which had been lethargic for some time began to show marked activity during the year. It collected a share capital of Rs. 2,972 while the number of members rose to 192.

82. *The Societies at Tiptur and Gubbi*, worked well as in the past. There was a slight increase in membership in the societies, the number at the close of the year being 176 and 121, respectively. The share capital was Rs. 7,045 for Tiptur and Rs. 4,196 for Gubbi, the figures for the previous year being Rs. 6,501 and Rs. 3,305, respectively. An outbreak of cholera in both the places had a retarding effect on a greater development of these societies during the year.

83. Coming now to the societies with a membership mainly composed of agriculturists, the society at *Kunigal* deserves the first mention. Both in point of share capital and membership, the increase over last year has been striking, the former being from Rs. 4,747 to Rs. 8,345 and the latter from 280 to 336, with deposits outstanding at the close of the year to the extent of Rs. 4,729. The working capital of the society was Rs. 18,436. The Reserve Fund at the credit of the society was Rs. 587. For this development of the society Mr. C. D. Ramaswamiah, its original founder, is in no small measure responsible. But for the initiative taken by him in giving a handsome deposit and in inducing the Committee of Management to extend the limit placed on individual credit in the society, the progress would not have been so well marked. It is trusted that the local gentlemen that form the Committee will maintain the progress. ✓ 6

84. *The Chiknayakanhalli Co-operative Society*, which comes next had a membership of 214 against 171 and a working capital of Rs. 4,528 against Rs. 3,104 of the previous year. Its Secretary Mr. H. Ramanna continued to work with interest. ✓ 6

85. The society at Turuvekere supplemented its share capital of Rs. 4,510 by a consolidated loan of Rs. 6,000 from the Central Bank, and was able to show a small deposit of Rs. 465 at the close of the year. The society's reserve at the close of the year was Rs. 662. The number of members at the end was 199 there having been an addition of 15 in the year. The society is well managed.

86. *The Amrutur Co-operative Society* in the Kunigal Taluk suffered a reduction in the number of members from 126 to 116 although its share capital increased from Rs. 2,390 to Rs. 3,453. This, as well as the society at Kunigal, are serving as models in the taluk for other rural societies. Mr. Srinivasa Iyengar and Mr. G. Ramaswamaiya, land-holders, are taking much interest in the Amrutur Society.

87. *Koratagere* comes next with a share capital of Rs. 3,103 and a membership of 255. Much credit belongs to the Secretary of the Society Mr. Veeranna-devaru for its efficient management. This Society has been a safe guide to other rural societies that come in contact with it.

88. The societies at *Thumbadigollahalli*, *Doddasaggere* and *Devalapur* all of which have borrowed from the Central Bank sums varying from Rs. 5,000 to Rs. 2,000 and have been punctually repaying their loans. In point of co-operative development the sub-division of Koratagere comes next to the taluk of Tumkur, and the local society at Koratagere furnished the requisite knowledge to the others.

89. *The Pavagada Co-operative Society* with its 217 members and a share capital of Rs. 3,395 gave rise to several societies in the villages of Nagalmadike, Channakesavapur, Arsikere and other places during the year. In this opening out of the taluk, the Honorary Supervisor, Mr. H. Narasinga Rao, deserves mention.

90. The old rural society at *Hoskote* in the Pavagada Taluk also progressed during the year with a rise in membership and from 138 to 199 and a share capital from Rs. 1,206 to Rs. 2,851.

91. Though late to come into the field, *Bellavi* in the Tumkur Taluk, was able within a course of three months to show a membership of 142 and a share collection to the extent of Rs. 2,287. It is a place well known in the District for its weekly market and contains many rich merchants who take a keen interest in the Society.

92. *Nonavinkere* in the Tiptur Taluk remained inactive during the year as in the year previous. The collection in the share capital did not get beyond Rs. 939 while the number of members on the roll continued stationary at 108. Towards the end of the year, however, it showed considerable activity which is likely to bear fruit during the current year.

93. Of the agricultural societies based on the unlimited liability of their members, the foremost place is taken by the *Coronation Society* at Honnavalli in the Tiptur Taluk, the share capital of which rose during the year under report from Rs. 773 to Rs. 3,967 and the number of members from 69 to 157. This society borrowed from the Central Bank a sum of Rs. 3,000 to supplement its working capital and like the sister society of *Eachanur* in the same taluk entertains the idea of creating a local market for all the cocoanut grown in the neighbourhood and thus realizing the profit that now goes to the middlemen at Tiptur.

94. The societies at *Baragur*, *Halenahalli* and *Haldodderi* in the Sira Taluk, *Bidare* and *Mookanahallipatna* in the Gubbi Taluk, *Kyatasandra* and *Hebbur* in the Tumkur Taluk and *Doddasaggere* in the Koratagere Sub-Taluk have all done good work during the year with their share capital varying from Rs. 1,000 to Rs. 2,500 and with a membership varying from 40 to 100. It is to this class of societies that the Central Banks are of the greatest use. Everywhere the desire to provide one's own fund is uppermost, and where this is not possible the societies have gone in for outside loans either as a last resort or as a step to secure the initial capital. It is a pleasing feature of the District that no society has, as yet, defaulted in its obligations to the Central Bank.

MYSORE DISTRICT.

95. The Societies in the District increased from 44 to 61 during the year. Of these 1 was Central, 19 Non-Agricultural, the rest Agricultural in character. The

total membership rose from 3,271 to 4,474 and the working capital from Rs. 1,40,651-7-3 to Rs. 2,70,060-7-10 and the net profit from Rs. 10,427-1-10 to Rs. 16,228-5-5.

96. *The Mysore District Central Co-operative Bank, Limited*, which was started last year with the object of financing the rural institutions in the District has progressed on steady lines. Its membership rose from 48 to 52 of which 9 are society members. Its share capital increased from Rs. 2,830 to Rs. 10,370. The Society attracted a deposit of Rs. 9,600 and issued loans to the extent of Rs. 18,500 to the Kuderu and the Ummadahalli Societies. The demand for loans during the year was more than could be met by this institution and the Bangalore Central Co-operative Bank therefore took up part of the financing of rural societies in the District.

97. The number of members in the Mysore Co-operative Society has increased from 369 to 436 and the share capital from Rs. 28,431 to Rs. 29,337-8-0. The Society was able to attract during the year a deposit of Rs. 4,810. It issued loans to the extent of Rs. 82,353-8-0. It purchased goods during the year to the extent of Rs. 13,542-2-6 and sold goods worth Rs. 15,617-2-4. The transactions of the Society resulted in a net profit of Rs. 2,658-10-0 including the profits from the goods department. Its Reserve Fund increased from Rs. 2,448-5-1 to Rs. 3,114-7-0. One noticeable feature in the working of the Society was the institution of a Provident Fund scheme which supplied a sum of Rs. 1,160 to the working capital of the Society.

98. *The Mysore Co-operative Bank, Limited*, which is a purely banking institution had a membership of 390 at the end of the year. It collected a share capital of Rs. 25,243-8-0 and attracted deposits amounting to Rs. 6,019. The loan issued amounted to Rs. 1,07,872 and the net profit earned was Rs. 2,819-13-2. It had a reserve of Rs. 400-14-6. It has been doing very good work among the officials and the tradesmen of the Mysore City. --

99. *The Mysore Lakshmisahaya Nidhi Co-operative Society, Limited*, is a weaver society in the city of Mysore. There was a slight increase in the membership from 79 to 84. The share capital was Rs. 8,147-8-0. The society purchased yarn of the value of Rs. 39,721-15-8 and the sale proceeds from distributing it in retail to the members amounted Rs. 41,687-2-3. The total net profit was Rs. 1,381-14-2. Its reserve increased from Rs. 537-1-5 to Rs. 784-3-3.

100. *The T.-Narsipur Co-operative Society* increased its membership from 123 to 136 and share capital from Rs. 3,932 to Rs. 4,777. It earned a net profit of Rs. 517-3-10 as against Rs. 328-8-6 of last year.

101. This year, a Society was started for the Palace servants employed in the Stables of His Highness the Maharaja of Mysore. It has 259 members. It collected a share capital of Rs. 1,42-12-0 and a deposit of Rs. 2,538-0-0 including the sum of Rs. 2,000 very graciously given by His Highness the Maharaja. It has rescued the members from the clutches of usurers and promotes thrift and savings steadily. It owes its success to the enthusiastic efforts of its Secretary, Mr. S. Rama Rao.

102. A similar Society was started on the 14th June, the Birthday of His Highness the Maharaja, by the members of the Body-guard of His Highness at Mysore. It immediately enlisted 81 members and collected Rs. 407-14-0 in share capital. The enthusiastic interest of Mr. S. Gopala Rao, the Commandant of the Corps is a guarantee of its successful working.

103. The membership of the Nanjangud Society increased from 162 to 186 and share capital from Rs. 5,199 to Rs. 7,748-15-6. It lent a sum of Rs. 10,864-8-0 as against Rs. 9,019-12-0. The net profit earned was Rs. 372-0-0 and the reserve accumulated was Rs. 200.

104. *The Seringapatam Society* increased its membership from 132 to 177 and its share capital from Rs. 4,363 to Rs. 9,093-0-0. It earned a net profit of Rs. 698-14-6.

105. *The Hunsur Co-operative Society* has rapidly developed this year with a membership of 132 and a collected share capital of Rs. 4,037-2-0. It issued loans to the extent of Rs. 6,001. The transactions of the Society resulted in a net profit of Rs. 362-9-2.

9 106. *The Melkote Weavers' Co-operative Society* is perhaps the best Weavers' Society in the State. Its membership increased from 110 to 124 and share capital from Rs. 7,079 to Rs. 7,865-4-0. Loans to the extent of Rs. 30,118 were given and Rs. 27,800-8-10 were repaid by the borrowers. Stock to the extent of Rs. 12,829-11-0 was purchased during the year and the sale proceeds of stock during the same period were Rs. 14,220-1-4. The gross profit on sale of stock was Rs. 671-5-7, and the net profit from all the transactions was Rs. 1,622-11-8. Its reserve was increased from Rs. 1,301-9-5 to Rs. 1,610-13-4.

107. *The Thogatagere Naige Society* in the Heggaddevankote Taluk is another Weavers' Society. It had 55 members and a share capital of Rs. 1,050-4-0 at the end of the year. The stock of yarn bought during the year amounted to Rs. 4,404-6-4 and the sale proceeds were Rs. 4,655-12-10. It earned a net profit of Rs. 290-1-7.

10 108. At *Kommerahalli* in the Mandya Taluk a Society was started purely for the benefit of the Holeyar weavers of the place. It had a membership of 43 and a share capital of Rs. 1,193-9-6. The Society purchased yarn worth Rs. 6,049-12-2 and sold yarn to the members of the value of Rs. 4,843-7-2. The members are an industrious body and have been taking to new and improved methods of weaving. Cloths such as sadies, towels and bed-sheets are produced and offered for sale in the Society. Since the close of the year, the Director of Industries and Commerce has been kind enough to station at the village a Weaving Demonstrator to teach the members new methods of weaving. Several fly shuttle looms have been introduced and the Society has been financed to the extent of Rs. 1,000 for purchasing more such looms and improving the industry. The management rests in the hands of the local schoolmaster Mr. Puttanna, who gives his time and energy ungrudgingly for promoting the welfare of this depressed community. This Society has been serving as a model for other weavers in the neighbourhood.

109. *The Belakavadi Sree Jagannmohana Ranganathaswamy Paraspara Sahaya Sangha, Unlimited*, is a most successful Agricultural Society in the Malvalli Taluk. Its membership increased from 145 to 199 and the share capital from Rs. 3,182-8-0 to Rs. 6,092-0-0. It earned a net profit of Rs. 466-11-2. Its Secretary Mr. Naranappa is extremely popular.

110. *The Ummadahalli Society*, in the Mandya Taluk, had a membership of 41 at the end of the year. It borrowed a sum of Rs. 6,000 from the Mysore Central Bank for paying off prior debts and meeting the agricultural requirements of the people. It lent a sum of Rs. 6,150 to its members and recovered Rs. 820.

111. *The Kuderu Annyonya Sahaya Sangha* in the Chamrajnagar Taluk had its membership decreased from 182 to 143. The decrease is only nominal and is due to the splitting up of the society into three different societies, the other two being situated at Ummattur and Hanumanapura. Its share capital increased from Rs. 984-15-4 to Rs. 1,737-13-0. The society borrowed a sum of Rs. 12,500 from the Mysore District Central Bank and utilized the money in paying off prior debts carrying high rates of interest.

112. *The Manchenahalli Baneswara Paraspara Sahaya Sangha* in the Yedatore Taluk had a decrease in its membership from 96 to 86 though there was an increase in its share capital from Rs. 1,615-15-3 to Rs. 2,557-3-8. The loan of Rs. 1,000 which it had borrowed from the Bangalore Central Bank was repaid during the year. It lent a sum of Rs. 2,239 to members and recovered Rs. 2,362. The transactions resulted in a net profit of Rs. 208-11-4.

113. *The Yelwal Paraspara Sahaya Sangha, Unlimited*, increased its membership from 44 to 60 and its share capital from Rs. 1,452-8-6 to Rs. 2,359-2-0. It lent a sum of Rs. 3,365 and recovered a sum of Rs. 2,332-12-0. It earned a net profit of Rs. 255-13-3.

114. *The Hommeragalli Durga Parameswari Paraspara Sahaya Sangha, Unlimited*, in the Heggaddevankote Taluk suffered a decrease in membership from 75 to 63 on account of cholera and plague which broke out in a severe form during the latter part of the year. But its share capital increased from Rs. 2,917-12-0 to Rs. 3,122-8-0. Out of the sum of Rs. 5,000 which the society borrowed two years ago a sum of Rs. 1,250 was repaid during the year 1911-12. Last year a further sum of Rs. 1,148-10-0 was remitted to the Central Bank towards the principal.

On account of the reasons stated above, the society was not able to transact much business and it is hoped that it will regain its former strength.

115. *The Keelara Society* in the Mandya Taluk had a membership of 43 at the end of the year. It borrowed a sum of Rs. 6,500 from the Bangalore Central Co-operative Bank. It lent a sum of Rs. 7,881-4-7 and earned a net profit of Rs. 73-7-9. The progress of the Society was to a certain extent impeded on account of the lamentable death of its enthusiastic and energetic Secretary Mr. Cheluvia, the shanbhog of the village. A new Secretary has been chosen and it is trusted that the Society will continue to do good work as in the past.

HASSAN DISTRICT.

116. The progress of the Co-operative movement in the Hassan District reported last year was kept up during the present year. Organization of new societies and improvement of old ones received special attention. There were 48 Societies at the close of last year and 26 were started during the course of the year making a total of 74 at the end of the year.

117. This progress is mainly due to the District Co-operative Conference held at Hassan in the month of January last, which was opened by Mr. P. R. W. Wetherall, Deputy Commissioner, Hassan District, and which is referred to in paragraph 165 below. A Co-operative Union of the societies in the Hassan, Alur and Arkalgud Taluks was organized and registered soon after the sittings of the Conference were over. The Union is worked by an influential Board presided over by Mr. Syed Amir Hassan, Retired Senior Assistant Commissioner and member of the Mysore Legislative Council.

118. The total membership increased from 1,002 to 3,055 and the working capital from Rs. 31,261-7-7 to Rs. 98,806-13-4. The deposits attracted during the year amounted to Rs. 14,404-7-10 as against Rs. 2,387-1-8 of last year. The total amount of loan granted to members during the year amounted to Rs. 1,15,759-1-0 as against Rs. 30,297-4-4 of last year.

119. *The Hole-Narsipur Agricultural and Industrial Co-operative Society* is the oldest society in the district. This institution is not showing any good progress and its place has completely been taken by another society registered during 1911-12. This society has though recently started, shown great activity and has transacted business to the extent of Rs. 44,302-9-11. It has earned a net profit of Rs. 295-15-1. It had got one of the largest membership in the Hassan District being 245 at the close of the year. It collected a share capital of Rs. 6,795-15-2 and attracted deposits to the extent of Rs. 9,750-3-0. This society is one of the best in the district.

120. At the General Meeting of this Society held on 3rd August 1913, the members resolved to give away all their dividends for the construction of a suitable building to the Society at a cost of about Rs. 1,000. The foundation stone for the building was laid by me when I was there for the above General Meeting. The development of this Society and its popularity are chiefly due to the exertions of Mr. R. Tirunarana Iyengar, B.A., Amildar of the place, who is the President of the Society.

121. *The Arsikere Co-operative Society* is the biggest society in the district. It has 207 members, collected a share capital of Rs. 10,803-13-0 and transacted business to the extent of Rs. 61,192-14-5. The net profit earned amounts to Rs. 583-7-5 which is rather small considering the business done. This is owing to the heavy establishment charges incurred by the Society. This Society is in many respects serving as an excellent example to the other societies of the taluk.

122. The Headquarter Society at Hassan takes the third rank in the district. It has a membership of 113 persons and a share capital of Rs. 4,993-8-0. It has not been progressive.

123. *The Belur Paraspura Sahaya Sangha, Unlimited*, has shown considerable progress during the year. Its membership increased from 50 to 102 and the paid up capital rose from Rs. 973-8-0 to Rs. 2,610-8-0. The Society granted loans to the extent of Rs. 3,720-8-0, resulting in a net profit of Rs. 196-9-8.

124. Of the rural societies the *Ramanathapur Prasanna Subramanya Swami Paraspura Sahaya Sangha, Unltd.*, in the Arkalgud Taluk, which was started in

KADUR DISTRICT.

136. In the Kadur District, there were six Societies, registered at the beginning of the year, of which five were Limited, and one Unlimited. During the year under report, nine fresh Societies were started, of which seven were Agricultural Unlimited, one Non-Agricultural Limited, and one Non-Agricultural Unlimited. Thus, there were in all 15 Societies at the close of the year. The total membership rose from 505 to 922, and the working capital from Rs. 8,957-4-11 to Rs. 15,495-11-9. The total transactions of the several Societies amounted to Rs. 40,062-3-10.

137. *The Chikmagalur Town Co-operative Society, Limited*, has shown progress during the year. Its membership increased from 122 to 169, and the paid-up share capital from Rs. 2,983 to Rs. 5,769-13-7. The total amount of loans issued was Rs. 10,773-8-0 and the net profit realized was Rs. 564-4-1. The Society is well-managed, under the able guidance of its Secretary Mr. Kesavachar, retired Amildar.

138. *The Tarikere Co-operative Society, Limited*, started during the latter part of the year had 77 members, with a paid-up share capital of Rs. 1,213-6-6. The Society issued loans to the extent of Rs. 1,175 and realized a net profit of Rs. 73-14-6.

139. *The Koppa Co-operative Agricultural Society, Limited*, had 20 members and a share capital of Rs. 950. It sold goods to the extent of Rs. 665-15-10, and realized a gross profit of Rs. 109-11-5. But the heavy loss incurred in previous years in paddy and sugar cane cultivation has reduced the financial strength of the Society considerably. A few philanthropic gentlemen are striving hard to recoup the loss by making advances without interest to the Society. 11/11 ✓

140. *The Yedahalli Sri Ramachandra Subrahmanya Swami Karunyodbhava Co-operative Society* had at the close of the year 33 members, with a paid-up capital of Rs. 1,271-12-7. It lent Rs. 1,175 to the members, and made a profit of Rs. 115-0-7.

141. *The Hiremagalur Sri Kodanda Ramachandra Swami Paraspara Sahaya Sangha, Unlimited*, had at the end of the year 49 members, with a paid-up capital of Rs. 525-9-1. The Society issued loans to the extent of Rs. 355 and realized a profit of Rs. 43-9-1. The Society has shown satisfactory progress for the small period of three months of its existence.

142. *The Yagati Co-operative Society, Unlimited*, in the Kadur Taluk started during the latter half of the year, had 87 members and a paid-up capital of Rs. 721-7-11. A sum of Rs. 1,181 was lent and Rs. 44-13-11 was realized towards profits.

CHITALDRUG DISTRICT.

143. The District continues backward as during the last year, though the number of Societies has increased from 5 to 9, the number of members from 654 to 893 and the working capital from Rs. 10,694 to Rs. 19,026. The total receipts of the year amounted to Rs. 35,214-2-3 against Rs. 16,858-3-10 of last year and the expenditure to Rs. 28,750-9-10 against Rs. 12,849-2-1 of the previous year. The deposits increased from Rs. 10-0-8 to Rs. 4,481-1-10.

144. *The Chitaldrug Co-operative Society, Limited*, ranks first among the Societies in the District. The total number of members was 184. Though it was newly established during the year it collected a share capital of Rs. 4,850 and granted loans amounting to Rs. 8,083-8-0 and earned a profit of Rs. 140-14-5.

145. *The Krishisilpabhiwridhi Samaja of Chitaldrug* had 481 members and a working capital of Rs. 4,089-0-8. It is an Agricultural Association intended to promote improvements in agriculture.

146. There were 99 members in the *Molakalmuru Zakirul Islam Co-operative Society* and its working capital amounted to Rs. 5,832-13-11. It is a Weavers' Society which carried on business transactions to the extent of Rs. 15,890-12-4. (15)

147. *The Sree Harihareswara Co-operative Society* of Harihar has done some work during the year under the guidance of Mr. T. Mahadeva Rao, its President. The number of members in the Society was 32 and the working capital amounted to Rs. 1,723-9-0.

IV. RESERVE FUND.

148. The Reserve Fund of all the societies has increased from Rs. 18,833 at the beginning of the year to Rs. 30,600 at its close, or by a sum of Rs. 11,767. Of this sum, the Societies in the Bangalore District contributed Rs. 12,022, those in the Mysore and the Tumkur Districts Rs. 7,505 and Rs. 7,274 respectively, the rest being accounted for by the Societies in the other Districts. The following statement shows the gradual increase of the Reserve Fund since 1905-06 :—

					Rs.	a.	p.
1905-06	...	...	...	...	131	10	8
1906-07	...	...	...	...	160	5	11
1907-08	...	...	...	...	924	15	6
1908-09	...	...	...	...	2,340	10	10
1909-10	...	...	...	...	5,831	1	1
1910-11	...	...	...	...	9,549	4	2
1911-12	...	...	...	...	18,833	0	0
1912-13	...	...	...	...	30,600	8	5

30600
18833

11767

149. The fact that the Reserve Fund is not larger and that it does not grow more rapidly is due to the liberal policy that the Mysore Co-operative Societies Regulation, III of 1905, has adopted, of permitting unlimited liability societies to distribute dividends on their shares. While this has the effect of encouraging share capital, it tends to diminish outside borrowings and to prevent large additions being made to the Reserve Fund.

150. The Societies have fully understood the importance of having a good Reserve Fund and every endeavour is being made to increase it. They have invariably been allotting to the Reserve more than what is prescribed by the Co-operative Regulation. The Reserve Fund has not been allowed to be utilized for the ordinary transactions of the Society. It has been invested either in the Central Bank or the Postal or Government Savings Banks.

V. RESOURCES.

151. *General.*—The resources of all the Co-operative Societies have doubled themselves during the year being Rs. 13,03,985 against Rs. 6,85,831 of the previous year. This is due to the increased popularity of the movement and the growing confidence of the people in the work of Co-operative Societies.

152. *Central Banks.*—There were two Central Banks working during the year. They had a share capital of Rs. 46,795 and deposits amounting to Rs. 1,48,646.

153. *Loans from His Highness the Maharaja's Fund.*—Out of Rs. 2,000 graciously placed by His Highness the Maharaja at my disposal for financing rural Societies in their initial stages a sum of Rs. 966 was lent to 3 Societies at 6 per cent. The total amount from this fund outstanding against the Societies was Rs. 1,666.

154. *Loan from Government.*—Of the sum of Rs. 15,000 sanctioned by the Government for a similar purpose, the only loan granted was a sum of Rs. 250 to the Kommerahalli Weaver Society of Holeyars. No Government financial help was needed by any other society. The Bangalore Central Bank did not make use of the cash credit of Rs. 35,000 sanctioned to it by Government last year, as it collected deposits in sufficient quantities.

155. *Classification of Resources.*—The following statement shows the amounts under different heads that have contributed to the total resources of all the Societies :—

				Rs.
Share Capital collected	...	...	...	6,78,786 ✓
Deposits from members	...	...	...	1,88,611
Loans and deposits from non-members	...	...	...	1,41,819
Loans from the Central Banks	...	...	...	1,42,981
Loans from Government	...	...	...	1,602
Profits	...	...	...	62,580
Miscellaneous items	...	...	...	87,606
Total	...	...	...	13,03,985

In this statement, the sum of Rs. 1,42,981 being the loans from the Central Bank, has been counted twice over, but it is unavoidable as Central Banks must collect their shares and deposits and at the same time make their funds available for loans to individual societies.

156. Of the total resources, the share capital or the money subscribed by the members themselves, comes to 52 per cent against 56·7 per cent of the last year. Next in rank comes the deposits which contribute 22·9 per cent. The loans from the Central Bank form 10·9 per cent, the remainder being made up of other items. The Government aid granted to Co-operative Societies forms but a very small fraction, being 0·11 per cent of the total resources.

157. The Societies generally act very cautiously in the matter of borrowing from outside and rightly rely as far as possible on their own resources in the shape of share capital and local deposits. This policy is encouraged in the infancy of a society as it stiffens responsibility, care being taken to advise the Societies to borrow from outside for productive and necessary purposes as they gain experience. This is why the percentage of share capital is high as compared to the total resources.

VI. DISPUTE^s AND LITIGATION.

158. Thirty-seven suits involving claims to the extent of Rs. 2,243-7-0 were pending at the beginning of the year, and seventy new ones involving claims to the extent of Rs. 5,566-9-11 were filed during the year. There were thus 107 suits for disposal and the amount claimed was Rs. 7,810-0-11. Of these, 64 suits of a money value of Rs. 2,607-13-1 were withdrawn as the defaulters discharged their obligations on the issue of preliminary notices. Decrees were passed on 28 suits, the amount decreed being Rs. 1,461-2-4. Fifteen suits of the value of Rs. 3,499-5-6 were pending disposal. An analysis of the figures shows that for 41,957 loans issued only 30 suits had to be pressed for decrees, out of 25,498 members but 50 persons defaulted to the last, and that the claims in relation to transactions worth 20 lakhs of rupees amounted to Rs. 4,000. The co-operative movement affords no better proof than this of its value in elevating the character of the members and this extremely insignificant amount of litigation reacts both on the honest borrower and the shrewd sowcar, inspiring them with confidence in the movement.

159. It will be noticed that in spite of the very large increase of transactions, the number of suits to which they give rise has fallen since last year. This is due to the fact that borrowing members are, as a rule, prompt in discharging their obligations, the loss of trust, respect and dignity which would inevitably follow if they stood before their fellow members as defaulters being a powerful factor in insuring punctuality of payments.

VII. AUDIT AND INSPECTION.

160. Great attention was devoted to audit and inspection during the year. All the societies in working order were inspected at least once, and some of them several times. The accounts of 195 societies were completely audited, and those of 30 test audited. I regret that the audit of some societies had to be put off for this year owing to want of staff.

161. A noteworthy feature of the year's work in this direction is a small beginning which has been made by lending societies to inspect and supervise the management and working of the borrowing societies. The Federal Union of Hassan referred to in para 117 above, deputed with my permission the Honorary Supervisor Mr. N. D. Naranappa to examine into the affairs of the 6 societies affiliated to it. This is necessary if the lending societies have to have a first hand knowledge of the conditions of the societies to which they have lent or are going to lend, money. I hope to see this practice more widely adopted in the future.

162. I must once again bring to the notice of Government that the staff of the Department requires considerable strengthening immediately. The societies do not require financial assistance from the Government. But they do need constant watching and supervision from my office and local inspection and personal guidance on the spot once in three months. It cannot be too strongly urged that

the success of the co-operative movement in Mysore will very much depend upon the efficiency and adequacy of the Government staff at this initial stage of its progress. I have therefore made separate proposals in this behalf which are under the consideration of the Government.

VIII. THE CO-OPERATIVE REGULATION AND THE RULES THEREUNDER.

163. The Mysore Co-operative Societies Regulation, III of 1905, and the Rules thereunder underwent no alteration. The question, however, of amending the Regulation to suit present requirements is under consideration.

IX. MISCELLANEOUS.

164. During the Dasara season of 1912, the Second Provincial Co-operative Conference was held at Mysore. It was attended by about 350 delegates and was presided over by the First Councillor Mr. H. V. Nanjundayya, M.A., M.L., His Highness Sir Sri Kanthirava Narasimharaja Wadiyar Bahadur, K.C.I.E., the Yuvaraja of Mysore opened the Conference and watched the proceedings of the first day. His Highness graciously gave a garden party to the delegates at which they were individually presented to the Yuvaraja who made detailed enquiries of the condition of their society. A full report of the Conference was duly published and submitted to the Government.

(1) 165. For the first time in the history of the movement, the desirable practice of holding District Co-operative Conferences was inaugurated during the year. The Societies in the Hassan District conceived the idea and made arrangements for holding a Conference during the Ranganathaswami Car Festival at Hassan in January 1913. It was attended by delegates of about fifty Societies and was presided over by Mr. P. R. W. Wetherall, Deputy Commissioner, Hassan District. The success of this Conference was due to the indefatigable exertions of Messrs. S. N. Appannaiengar, V. Rajagopalachar, N. D. Naranappa, Syed Amir Hussain, S. Venkatesaiya, Advocate, and other leading private gentlemen of Hassan. The Conference directly led to the formation of twenty fresh societies in the District.

(2) 166. In April a similar Conference was organised by the Channagiri Co-operative Society for the societies in the Shimoga District. The representatives of 9 societies took part in it. This Conference was presided over by Mr. K. Srinivasa Rao, Deputy Commissioner, Shimoga District, and enthusiastically assisted by the Amildar Mr. Sri Narasimha Sastri.

(3) 167. The next District to arrange for a Conference was Kolar. The Co-operative Society at Yedarur, a small village in the Srinivasapur Taluk, undertook the arrangements in connection with the event under the guidance of its enthusiastic and public-spirited Secretary Mr. Bhaskarappa. About 20 Societies were represented at the meetings which were presided over by Mr. P. F. Bowring, Deputy Commissioner, Kolar District.

(4) 168. The last District to hold a District Conference was Tumkur. Messrs. C. D. Ramaswamaiya, C. Seshadri Iyengar and other gentlemen arranged for a Conference at Tumkur under the presidency of Mr. V. R. Thyagaraja Iyer at which delegates from 33 Societies took part. At the close of the Conference, Mr. V. R. Thyagaraja Iyer was *at home* to the delegates.

169. Separate and detailed reports have been submitted about these Conferences, and it is unnecessary therefore to say much about them here. In all cases they have been due to a wide spread desire on the part of the co-operators in different parts of the State to meet together, compare experiences, express difficulties, and devise remedies. As is almost inevitable under present circumstances, the task of acting on this desire has fallen on the Registrar and in this task he has been most cordially assisted.

170. Their Highnesses the Maharaja and the Yuvaraja have been unswerving and lavish in their encouragement to the movement, and the example set by them has been heartily followed by all the Government Officers of whose help and Co-operation I was in need. The fact that their sovereign and his brother and the Government are interested in the co-operative movement has induced the public

to do all in their power to popularize and extend it, and thus realise the expectations entertained of them. I must also express my hearty thanks to the Agricultural Committee and the Industries and Commerce Committee of the Economic Conference for their generous grants of Rs. 500 and Rs. 200, respectively, for meeting a part of the cost of the Provincial Conference.

171. The bye-laws of the rural societies were revised in March last and they are being adopted by all societies registered since then. Model bye-laws were also framed for Co-operative Jaggory Manufacturing Societies. Bye-laws applicable to Unions were also framed and have been adopted by the Hassan Federal Banking Union and the Tumkur Federal Banking Union.

X. ATTITUDE OF THE PUBLIC AND ASSISTANCE RECEIVED.

172. After the signal instances that have been mentioned of public interest, public sympathy, and public assistance, it is almost unnecessary for me to say that the attitude of the people to the Co-operative movement was entirely favourable. At first, I believe, the movement was little understood, and hence treated with indifference and scepticism. But now that the benefits of co-operation are proved and known, there is nothing but enthusiastic interest and readiness to participate in those benefits. I have often had occasion to notice in my tours and inspection how keenly the people desire to obtain a knowledge of co-operation and how accurate are the ideas possessed by them. I have also had some instances of enquiries and applications for assistance in the formation of societies from people in the bordering districts of British India.

173. The attention paid by the leading Kannada and some of the English papers in the State has done much to popularise the movement. The 'Daily Post' of Bangalore now and then publishes articles on co-operative matters describing interesting features of Co-operation in Europe or in India. The 'Vokkaligar Patrika' continues to give co-operation an important place in its columns. More important than the work of such papers is the work done by the "Mysore co-operative Bulletin", a Kanarese Monthly Journal published in Bangalore by Mr. K. S. Krishna Iyer, B.A., of the Irish Press. The idea of having a publication of this kind was long entertained but, for one reason or another, it could not be carried out till January 1913. Arrangements were then begun and a working agreement was made with Mr. K. S. Krishna Iyer for the publication of the Bulletin. Its subscription has been fixed at rupee one per annum and the Bulletin is being taken by all the Societies in the State. Copies are also supplied to all the principal Provincial, District and Taluk officers in the State so that they may follow the progress of co-operation. There have so far been nine issues of the Bulletin.

174. The Honorary Organizers have not, during the present year been so intimately connected with the movement as during the past. Mr. H. R. Srinivasa Rao whose energy and enthusiasm were directly responsible for the spread of the co-operative movement in the Hassan District has had to retire from active work on account of failing health. Mr. T. Venkataramaiya, Honorary Organizer of the Bangalore District continued to render good assistance. But being an Honorary Bench Magistrate of Bangalore, he could not spare more than 48 days for co-operative work. Mr. Badami Krishna Rao, Honorary Organizer, Mysore District, has been otherwise busy.

175. The number of gentlemen who have been giving the movement their services as Honorary Supervisors has increased from 8 to 15 this year. They understand the rural population and village requirements thoroughly, and are extremely useful not only in starting societies but also in teaching them how to work from day to day. Amongst them my thanks are specially due to Messrs. B. Subbaiya, N. D. Naranappa, G. Nanjappa, C. Kesava Rao, T. B. Lakshmana Rao, H. Ramanna, Narasinga Rao, Gundu Rao, Venkappa and H. Surappa.

176. The Secretaries and other office bearers of Societies have, as was fully expected, entirely deserved the trust and confidence reposed in them by their fellow members. They have discharged their duties, always onerous and often unpleasant, to complete satisfaction and have, by their strenuous endeavours and businesslike methods, earned the gratitude of the members of their Societies.

177. I have in the course of this report mentioned several gentlemen to whom I am deeply grateful for their valuable services. Among others, I am specially indebted to Mr. H. V. Nanjundayya, Mr. M. Kantaraj Urs, Mr. C. Srinivasa Iyengar, Mr. Lakshmi Kantaraj Urs, the Reverend Mr. Spencer, Mr. Nanjundaraj Urs, Mr. D. Appu Rao, and many others for the help they have rendered to me in different connections.

178. As regards the officers of the Government, it would be invidious to mention some names and omit others, where all have been equally willing and able to render assistance. There are some, however, upon whose time and patience I made specially heavy demands. Among such I should mention Mr. Wetherall, Mr. P. F. Bowring, Mr. V. R. Thyagaraja Iyer, Mr. K. Srinivasa Rao, among Deputy Commissioners, Messrs. S. N. Appanna Iyengar, A. V. Ramanathan, C. Machaiya, A. Krishnaswami Iyengar, N. Rama Rao, Syed Taj Peran, B. T. Kesava Iyengar, S. Narayana Rao and T. Chokkanna among Assistant Commissioners, and Messrs. C. Rajagopalachari, M. S. Ramachandra Rao, S. N. Sri Narasimha Sastri, C. Srinivasa Rao, A. Krishne Urs, Narayan Iyer, G. Narayan Rao, Venkataramana Srouti, S. Srinivasa Iyengar, R. A. Narasimha Iyengar, B. Krishna Singh, the late Sundara Rao, N. Rama Rao, F. S. Raghavachar, C. Lakshmana Rao, B. Kesar Singh, P. Subba Rao, H. S. Anantharama Iyengar and Subba Rao.

179. The progress of the year would have been impossible, but for the hearty co-operation of one and all in the staff who have worked ungrudgingly at all seasons with the zeal of the missionary in a noble cause, both in and out of office hours, on working days and holidays. I therefore thank them most cordially.

I have the honor to be,

Sir,

Your most obedient servant,

M. A. NARAYAN AYANGAR.

Registrar.
